Profile

Aspiring C#/.NET developer currently completing the Northcoders bootcamp, with a long-standing interest in technology and how systems are built and function. My interest began at a young age through hands-on experience, including upgrading hardware and building my own PC, which developed my curiosity for problem-solving and system design.

With a background in computing and experience working in structured, data-focused environments, I have developed a logical and detail-oriented approach to problem-solving. I particularly enjoy backend development, where I can focus on building reliable, well-structured systems.

I am driven by a genuine interest in technology and continuous learning, and I am seeking a junior developer role where I can contribute to a team and continue developing my technical skills.

Technical Skills

Languages & Core: C#, .NET, Object-Oriented Programming, LINQ, Async Programming

Testing & Practices: Test-Driven Development (TDD), NUnit, Moq

Tools: Git, GitHub, Visual Studio, VS Code, PowerShell

Databases: SQL Server, T-SQL, Basic ADO.NET

Web & Backend (Learning): ASP.NET Core, MVC, HTML, CSS

Professional Development

Northcoders Enterprise Engineering Bootcamp

March 2026 – Present

- Intensive training in C# and modern software development practices
- Applying object-oriented programming, clean code, and test-driven development in practical exercises
- Solved coding challenges using logical thinking, debugging, and structured problem-solving
- Quickly learned internal systems and adapted to changing processes and deadlines.

Java Programming Masterclass (Udemy)

2025 – Present

- Learning core Java concepts including variables, control flow, arrays, and object-oriented programming
- Building foundational programming knowledge through practical exercises

Google IT Support Professional Certificate (Coursera)

2023

- Covered networking, operating systems, system administration, and IT security fundamentals

Work Experience

Visa Documentation Coordinator

PPV Worldwide Limited – Global Visa Consultant

London, UK | 2023 – 2025

- Managed end-to-end visa applications, ensuring accuracy, compliance, and timely processing
- Used structured systems including Mosadaqa and QVP for document verification, tracking, and record management
- Maintained consistent and accurate client records across data-driven systems

- Communicated with clients and institutions to resolve issues efficiently
- Trained new staff on internal systems, procedures, and best practices

Food Delivery Courier

UberEats, Deliveroo & Stuart

London, UK | 2017 – 2023

- Delivered orders efficiently while maintaining high customer satisfaction
- Developed strong time management and route optimisation skills
- Communicated effectively with customers in fast-paced environments

Education

BSc (Hons) Computer Science (studied to final year)

Greenwich School of Management – London

2014 – 2017

- **Relevant modules:** Programming (Java & C#), Software Engineering, Database Management Systems, Systems Analysis and Design

BTEC Level 3 Extended Diploma in ICT

The College of Haringey, Enfield and North East London

2008 – 2012

- Modules included Software Design, Troubleshooting, Web Development, Databases, and E-Commerce

Interests

- Building coding projects and continuing to develop my C# / .NET skills outside of the bootcamp
- Chess – enjoy strategic thinking and problem solving
- Health and fitness – value discipline, consistency, and personal progress
- Following technology developments, including new devices, computing hardware, AI, and blockchain innovation
